**Electronic equipment.:**

2x Furuno radar 72/24 nm,
electronic sea maps,
radio equipment GMDSS,
gyrocompass,
Robertson AP9MK3 autopilot,
Furuno ecko sounder,
telefax,
mobiltelephones, m.m.

Accommodation.:

Mess room, galley , 3 WC , sanitary room ,5 single cabins.

Trading area.:

North- and Baltic sea. Norwegian Maritime Directorate. NSC

Crane .:

Palfinger PK 32000 MC, operated from fixed position and "joystics"

RSW.:

Aquaterm 320 000 kcal

Cargo hold arrangement.:

2 wells a 315m³, total 630 m³.
Hydraulic valves control panel by the crane and wheelhouse.
Circulation pumps x 4 el pumps 2x 1100 m³ + 2x 600m³

Disinfection.

1 stk. High pressure steamer, sufficient hoses, and nozzles. Cemical mixture.

Loading/unloading equipment:

Loading type FLS – 350. sea flow and counting

MMC Vakuum pump,
MMC Care grader with 2 Aquascan counters
Lumic smoltpump and counter with 14 cells.
Vaki Quatro smolt counter

Oxygen equipment.:

Fixed installed Ox and temperature sensors in each hold and one remote in addition.
Spare sensors on board.
Automatically and manually ox system.

Over and under pressure wells

2 x 5300 ltr Tendos pumps with 14" pipes handling fish at all times
Innovative 'Vaki' Macro wellboat smolt counter with 99% accuracy
O2 generating plant, with data logging of O2, CO2, pH, salinity unity, and temperature
Ozone disinfection, latest grading technology using the 'Tendos' roller grader.
